

## Join the Network

As a:

- **Redoubter**
- **AmRRON Operator**
- **AmRRON Corps Operator**

### **Redoubter** - (FREE and Anonymous)

Not dedicated as a communicator, but still added to the member directory so AmRRON Radio Operators in your area know you're out there to help keep you informed.

### **AmRRON** - (FREE and Anonymous)

Communication volunteers, including Ham Radio Operators (licensed) and Non-Ham Relays (non-licensed), working together to pass information using Ham radio and non-licensed communications.

### **AmRRON Corps** - (Paid Membership)

Dedicated Radio Operators who conduct nets and share intelligence, information, and technical support. Corps Operators maintain contact with each other and conduct training beyond the scope of normal AmRRON activities, with emphasis on unconventional communications operations.

Your personal information will not be shared. We take security seriously, and you are encouraged to join anonymously. When joining the network, you will be issued an AmRRON 'Code Name'.

We encourage the use of anonymous emails that do not include your personal information, such as FCC Call Signs.

Joining gives you access to the Member Directory, which lists other members and their general locations.

# Supporting Continuity of Government *American Citizens*

If the internet and phones stopped working...

How would you communicate with others?

How would you receive news?

In numerous cases around the world, and in the United States, catastrophic disasters have cut off citizens from all conventional communications.

## STAYING INFORMED CAN SAVE LIVES!

Could you call for help without phone service?

Could you receive news and information from around your community, state, or across the nation if there were no internet or electricity?

No Internet?

No Phones?

No News/Filtered News?

Government Cell Phone Tower Kill Switches?

**NO PROBLEM!**

## It's About a Network!

**Over 2,000 citizens, mostly Christian Patriots concerned about the direction our country (and the world) is headed, have joined a network of like-minded people, to:**

- **Stay connected**
- **Call for help if needed**
- **Share information with others**
- **Stay informed before, during, and after a crisis hits**
- **Be part of the post-crisis recovery**

**Using licensed Ham radio and non-licensed communications, liberty-loving citizens are networking.**

**Join the Network!**

## REGULARLY-SCHEDULED PRACTICE RADIO NETS

Throughout the month, AmRRON Radio Operators conduct practice nets. You can participate, or just tune in on your scanner or shortwave radio (with Single Sideband capability).

Learn more by clicking the 'Scheduled Nets' tab on [www.AmRRON.com](http://www.AmRRON.com)

### Radio Nets:

**Channel 3** FRS, MURS, and CB Radio

2 meters 146.420 Simplex

\*HF Voice NETS

20 meters 14.242 USB

40 meters 7.242 LSB

80 meters 3.818 LSB

\*HF Voice nets require, at minimum, a shortwave radio with Single Sideband (SSB) capability.

Visit our website to learn specific times and more information about other modes and frequencies.

### IMPORTANT NOTE:

In a real world emergency, follow the time schedule outlined in the SOI (Signals Operating Instructions).
